June 4th 2009

I recently started using Maldonado Vascutherm for pain management after trauma or surgery. I've used different cold modalities in the past, with some success. However, since using the Vascutherm, I've gotten excellent feedback from patients. Using the iceless cold and compression treatment, patients are able to wear the pad longer and are more compliant. In turn, I'm finding a faster recovery time as swelling is reduced and patients are happier with less pain. Maldonado is quick to deliver the equipment and troubleshoot any problems that may arise. I've been very pleased so far with the Maldonado Vascutherm and would recommend it to any physician for use.

Sincerely,

C. Jon Beecroft DPM
